

September 17, 1953

Dear Dr. McNeil:

As I have recently returned to my lab. here and am ready to resume some transduction experiments with *S. gallinarum*, I would appreciate hearing from you whether your maltose-fermenting strains of *S. pullorum* are still available. May I refer to your letters of May 8, 1953 et seq?

Yours sincerely,

Joshua Lederberg
Associate Professor of Genetics
